

Π et ν pour avoir un point rouge

$$\Pi = 0, \nu = 0$$

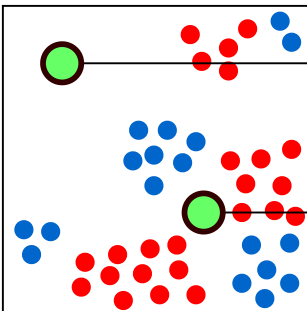

Information complète,
impossible

$$\Pi = 1, \nu = 1$$

Information complète,
certain

$$\Pi = \frac{1}{2}, \nu = \frac{1}{2}$$

Information complète,
pur aléatoire

$$\Pi = 1, \nu = 0$$

Aucune information

$$\Pi = \frac{3}{4}, \nu = \frac{1}{4}$$

Information partielle,
aléatoire
